PROFESSIONAL SUMMARY

Software Developer with 3 years of experience building cross-platform mobile applications using Flutter and backend API services using .NET Core Web API. Experienced in developing scalable applications, integrating RESTful APIs, and deploying solutions on Azure cloud services. Strong background in clean architecture, state management, and Firebase integration. Effective team collaborator with strong analytical skills, committed to delivering high-quality software solutions on time. Currently returning from a planned career break and actively seeking remote opportunities to make an immediate contribution.

TECHNICAL SKILLS

Languages: Dart, C#, C, SQL

Mobile Development: Flutter, Android, iOS, Clean Architecture, State Management as Bloc, Riverpod, and GetX

Backend: C#, ASP.NET Web API, RESTful APIs, MS SQL

Cloud: Azure App Services, Azure Functions, Azure Cognitive Services, Azure DevOps, Firebase, Power Automate

Tools: VS Code, Visual Studio, Android Studio, XCode, Git, Figma, Adobe XD

PROFESSIONAL EXPERIENCE

Software Developer — Athen Tech Solutions 2022 – 2024

- Developed and maintained 2 Flutter cross-platform mobile applications for Android and iOS from a single codebase.
- Applied Bloc state management with clean architecture, improving code maintainability and scalability.
- Managed end-to-end app deployment, and publishing 2 apps into Google Play Store and Apple App Store.
- Built and integrated scalable .NET Core Web APIs to support mobile application backends.
- Implemented Azure Cognitive Services Face API for biometric facial authentication, serving 5,000+ enterprise employees across Future Generali Life Insurance.
- Designed and deployed Azure Logic Apps and Azure Functions to automate backend workflows and data processing pipelines to reduce manual processing time.

Junior Flutter Developer — Digital Orbis Creators 2021 – 2022

- Built a cross-platform mobile application using Flutter and Dart for doctor-patient consultation with web(PWA) support.
- Used GetX state management to build a lightweight, fast-delivery application.
- Integrated Stripe and Razorpay payment gateways for secure in-app transactions.
- Implemented responsive UI layouts to ensure compatibility across various device screen sizes in mobile and web(PWA) applications.
- Collaborated with UI/UX designers using Figma and Adobe XD, translating designs into pixel-perfect interfaces.

KEY PROJECTS

Remote Job Portal | Self-Initiated Project | Flutter · .NET Core · Azure | 2025–Present

- Built the Flutter app using Clean Architecture and Bloc state management with responsive UI, animations, and performance profiling via Flutter DevTools.
- Developed the .NET Web API backend with CQRS/MediatR, EF Core, and JWT authentication. Managed end-to-end development from mobile frontend to cloud-deployed backend.
- Leveraged AI tools such as Claude Code and Cursor to streamline development across frontend and backend.
- Generated tailored cover letters from the resume using Claude Code AI tool.

FgMySpace – Attendance App | Flutter, .NET Core Web API, Azure Cognitive Services (Face API), Firebase, Logic Apps

- Delivered a face-ID attendance solution for 5,000+ Future Generali Life Insurance employees, enabling tap-to-mark attendance from any location.
- Integrated Cognitive REST APIs for employee face log management and used Firebase Dynamic Links for attendance approval workflows.
- Ensured the application runs in a secure environment using Jailbreak detection feature to safeguard assets, user data, and revenue stream mechanics.

ADAT – Audit Documentation & Archival Tool | .NET Core Web API, Power Automate, Azure App Service, SQL

- Implemented authorization middleware and Power Automate flows; deployed solution on Azure App Service.
- Generated workpapers(Excel Sheets) for managing risks in client auditing process.

FreshService – Azure DevOps Integration | ASP.NET Core Web API, Azure Functions, Azure DevOps

- Built event-driven Azure Functions to sync FreshService tickets with Azure DevOps work items, automating bug assignment workflows.

EDUCATION

Bachelor of Engineering, Computer Science 2016 – 2020

PA College of Engineering and Technology, Coimbatore | CGPA: 7.2 / 10
